

From the American Community Survey: 1999

Population and Housing Profile: Waterloo city, Iowa

NOTES: The population estimates in this profile are for people living in households and group quarters.

In the narrative profile below, if one sample estimate is larger than another, it does not necessarily mean that the same holds for their true values for the entire population. These estimates are derived from a sample of housing units and measure the true values with a degree of uncertainty. In the Profiles found at www.census.gov/acs/www/index_c.htm, this uncertainty is represented by the 90 percent confidence interval given for each estimate. For further information on confidence intervals see the Accuracy of the Data documents at www.census.gov/acs/www/index_b.htm.

Caution should be used when comparing data by race from previous years with those for 1999 due to the Census Bureau's implementation of the October 1997 revised standards for data on race and ethnicity. For the 1999 data, respondents may report one or more races and there are seven (American Indian and Alaska Native, Asian, Black or African American, Native Hawaiian and Other Pacific Islander, White, some other race, and two or more races) instead of five racial tabulation categories. The two or more races category includes all respondents who reported more than one race. See the methodology section for more details regarding these changes.

These data are preliminary and should not be used for official purposes.

POPULATION OF Waterloo city: In 1999, Waterloo city had a population of 67,197. The median age was 36.8 years. Twenty-six percent were under 18 years and 15 percent were 65 or older. There were 52 percent women and 48 percent men.

Source: Bureau of the Census, American Community Survey, 1999

In 1999, 5 percent of the housing units in Waterloo city were vacant. Seven percent of the vacant units were for seasonal, recreational, or occasional use. Five percent of the housing units were built since 1990. One hundred percent of Waterloo city housing units had complete plumbing and 100 percent had complete kitchen facilities.

CHARACTERISTICS OF OCCUPANTS: The occupied units consisted of 18,293 that were owned by residents and 9,335 that were rented. Three percent of the households occupying these units reported not having telephone service in their home and 8 percent did not have access to a car, truck, or van for private use. Multi-vehicle households were not rare. Thirty-seven percent had two vehicles and another 18 percent had three or more.

HOUSING COSTS: Fifty-six percent of owners with mortgages in Waterloo city spent less than 20 percent of their household income on housing; 17 percent spent 30 percent or more on housing. Among renters, 32 percent spent less than 20 percent of their household income on rent and 48 percent spent 30 percent or more on rent. The median gross rent was \$465 per month.
